<b>*WM. COPELAND</b> —	Pale lavender, blue overlaid nauve, distinct and pretty .....	.30	3.00

	Each	Doz.
<b>YOUELL'S FAVORITE</b> — Coloring is very beautiful, a mingling of carmine-rose and cream. Strongly flushed and marbled with cochineal-carmine; creamy middle band softly blended. Here and there over the flowers is a flash of pale old gold .....	.20	2.00
✓ <b>*GOLDEN ELSIE, 1925</b> — Beautiful, pure deep, solid yellow. The spikes are large and tall, and the flowers each of great size and beauty. A grand variety.....	\$ .75	\$7.50
<b>MAIDENS' BLUSH</b> — Unquestionably the finest pink Gladiolus of the Primulinus type. It is a strong grower, bearing medium to large flowers of a most exquisite shade of maiden's blush pink. Delicate, dainty, beautiful .....	.15	1.50
✓ <b>*NORA LEE (1925)</b> — A new and very attractive variety. Pure rose pink. Lower petals have a blotch of white overlaid cream. This variety carries our highest recommendation.....	1.00	10.00
<b>*ORANGE QUEEN</b> — Beautiful copper orange color, not yet existing in Gladioli, it grows and multiplies and germinates very good and we are of the opinion that it will become a leader because we do not know of a Gladioli of a more warm and distinct color .....	1.00	10.00
<b>SOUVENIR</b> — A pure canary yellow primulus grandiflorus, the most perfect flowering Gladioli of the purest canary yellow, it grows and multiples very good and it will have a great future. .....	.30	3.00
<b>SWEETHEART</b> — Light cream, with golden yellow shading on lower petals, overlaid with faint rose featherings. A beauty. ....	.25	2.50

Each year the demand for Gladioli in good mixtures becomes greater, and in the past few years the demand has been far greater than the supply.

To meet this demand I have made up an ideal mixture of some of the best named varieties.

**50c per Dozen. \$3.50 per Hundred.**

#### CULTURAL DIRECTIONS

Plantings for cut flowers should be made in rows eighteen inches apart, with bulbs three inches apart in the row, covering from four to six inches, according to the size of the bulbs; press the earth firmly around each bulb. Care should be taken to plant the bulbs right side up, and deep enough so that the new bulb, which forms on top, will not be pushed too near the surface. For succession of bloom, plant from the time the ground can be worked until June 15. — After the spike begins to show, all weeds should be removed, and if the soil is kept thoroughly worked, watering will hardly be necessary; they are great drinkers, however, and respond quickly to water. Always water after sundown.

**T E R M S** — Remittances must accompany all orders. Send Post Office or Express Money Orders, Draft or Certified Checks.

All bulbs sent prepaid at prices quoted.

Place your orders early.
